

3-15-2005

Dear Director,

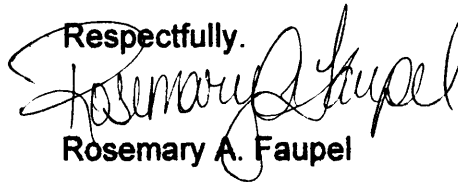

RECEIVED

MAR 20 2006

MISSOURI LAND
RECLAMATION COMMISSION

I am contacting you today to express my concerns that Fischer Quarry and Hauling LLC 25501 State Route Z, St. Mary, MO 63673 have applied to expand their permit from the Department of Natural Resources. This would allow them to mine limestone approximately 1000 feet from the elementary school my children attend. Due to the numerous health issues connected with this industry, do we really want the children, the elderly and the residents in that immediate area to be exposed to this potential hazard? I would appreciate your attention to this matter. I hope the welfare of your constituents will be key to your opposing this permit.

Respectfully,

A handwritten signature in cursive script, appearing to read "Rosemary A. Faupel".
